The foundational skills

- PowerShell (ideally in VS Code + GitHub Copilot)
- Entra ID App Registration, Managed Identities (MI) and Auth Providers
- Most common APIs
 - Graph
 - MSOL/PnP
 - EXO
- Azure Key Vault
- Azure Logic App (or PowerAutomate)
- Azure Automation
- Bonus : DevOps or GitHub

User Experience

Power App

SharePoint

Teams

Form

Anything with a
connector

Orchestration

Power Automate

Logic App

Backend worker

Azure Automation

Azure Function

Azure AppService

Azure AI Foundry

M365 or basically
any API system

Entra / Key Vault / Log Analytics
